

WitchDoctor's Billet Specialties LLC
BC-01-SS Battery Cover
www.buywitchdoctors.com

Attention:

This is an install at your own risk item. If you are not capable of installing it successfully then we suggest you take this item to a professional shop.

Our battery cover is shipped with a plastic protective cover on it. Remove the cover before installation. If any glue residue remains, it can be easily wiped off with a soft towel.

1) Remove the plastic side cover on the motorcycle. Hold the stainless cover on the bike and check for clearance problems. Peel the backing from the tape on the stainless battery cover.

2) Line up the battery cover and press it on. Make sure to get it right because its hard to remove! Put the motorcycle side cover back on.
