

WITCHDOCTOR'S

Billet Specialties LLC

Thank you for your purchase! To make your wheels look even better be sure to buy a matching billet pulley.

Witch Doctor's recommends that a qualified motorcycle technician install(s) your new wheels(s) onto your motorcycle. If you decide to install your wheel(s) yourself be sure to have an OEM service manual handy for the proper techniques for removal and installation of wheels on your make and model of motorcycle.

Oversize Wheel/Tire Fitment:

Prior to riding your motorcycle with your new larger wheel make sure to check all wheel/tire clearances.

Witch Doctor's will not be responsible for any damage to your motorcycle in any form i.e. paint, swingarm, pulley or even you new wheels/brake rotors and/or pulley due to incorrect fitment.

If you have an issue concerning fitment please contact Witch Doctor's immediately and do not ride your motorcycle until the issue has been resolved.

Warranty:

All of our wheels carry a one year warranty. If you are not satisfied with your wheel out of the box please contact Witch Doctor's immediately. Do not install a tire, rotor or pulley onto the wheel.
